

## TABLE OF CONTENTS

- CHAPTER I. TOOLS AND APPLIANCES.** 1. The Forge; 2. Fire Tools  
3. Fuels ; 4. The Anvil; 5. The Hammers; 6, The ball peen hammer ; 7. The cross peen hammer; 8. The straight peen hammer;  
9. The Sledges; 10. The Tongs; 11. The flat jawed tongs; 12. The hollow bit tongs; 13. The pick-up tongs ; 14. The side tongs;  
15. The chisel tongs ; 16. The link tongs; 17. the tool or box tongs ; 18. Anvil and Forging Tools; 19. The hardy ; 20. The cold and hot cutters; 21. The hot cutter; 22. The flatter; 23. The Square- and round-edged set hammers; 24. The punches; 26. The top and bottom swages ; 26. The top and bottom fullers ; 27. The button head set or snap ; 28. The heading tool ; 29. The swage block ; 30. The surface plate; 31. The tapered mandrels ; 32. Bench and Measuring Tools ; 33. The bench or box vise ; 34. The Chisels; 35. The center punch ; 36. The role ; 37. The dividers; 38. The calipers; 39. The somber or scratch awl ; 40. The square; 41. The bevel; 42. The hack saw; 43. The files.
- CHAPTER II FORGING OPERATIONS.** - 44. The Hammer Blows; 45. The upright blow; 46. The edge-to-edge blow; 47. 1 lie over banging blow; 48. The beveling or angle blows; 49. The leverage blows; 50. The backing-up blows; 51. The shearing blow; 62. Forging; 63. Drawing; 54. Bending ; 55. Upsetting; 58. Forming ; 57. Straightening; 58. Twisting ; 59. Welding; 60. The Material for Welding; 61. Heating; 62. Scarfing; 63. The lap weld ; 64. The cleft weld 65. The butt weld ; 66. The jump weld; 67. The V weld
- CHAPTER III. PRACTICE EXERCISES.** - 68. Staple ; 69. Draw Spike; 70. S Hook; 71. Pipe Hook; 72. Gate Hook; 73, Door Hasp; 74. Hexagonal Head Bolt; 75. Square-cornered Angle ; 76. Fagot Welding; 77. Round Weld ;78. Flat Right-angled Weld ; 79. T Weld; So. Chain Making; 81. Welded Ring; 82. Chain Swivel; 83. Chain Swivel; 84 Chain Grabhook
- CHAPTER IV. TREATMENT OF TOOL STEEL.** -85. Selecting and Working Steel; 86. Uses of Different Grades of Steel; 87. Injuries; 88. Annealing; 89. Hardening and Tempering; 90. Casehardening

## **CHAPTER V. TOOL MAKING AND STOCK CALCULATION. -91.**

Tongs;

92. Heavy Flat Tongs 93. Light Chain Tongs; 94. Lathe Tools; 95. Brass Tool ; 96. Cutting-off or Parting Tool ; 97. Heavy Boring Tool ; 98. Light Boring or Threading Tool; 99. Diamond Point Tool; 100. Right Side Tool; 101. Forging Tools; 102. Cold Chisel; 103. Hot Cutter; 104. Cold Cutter; 105. Square-edged Set ; 106. Hardy; 107. Flatter; 108. Small Crowbar; 109. Eye or Ring Bolts; 110. Calipers; 111. Stock Calculation for Bending .

## **CHAPTER VI. STEAM HAMMER, TOOLS, AND EXERCISES - 112. A**

Forging; 113. The Drop Hammer; 114. Presses; 115. The Steam Hammer; 116. Steam Hammer Tools; 117. The hack or cutter ; 118. The circular cutter; 119. The trimming chisel 120. The cold cutter; 121. The checking tool or side fuller; 122. The fuller; 123. The combined spring totters; 124. The combination fuller and set; 125. The combined top and bottom swages; 126. The top and bottom swages; 127. The bevel or taper tool; 128. The V block; 129. The yoke or saddle; 130. Bolsters or COURTS; 131. Punches ; 132. Steam Hammer Work; 133. Crack Shaft ; 134. Connecting Rod; 135. Rod Strap; 136. Eccentric Jaw; 137. Hand Lever; 138. Connecting Lever ; 139. Solid Forged Ring; 140. Double and Single Offsets

## **CHAPTER VII ART SMITHING AND SCROLL WORK. - 141. Art Smith-**

lug; 142. Scroll Fastenings; 143. Scroll Former; 144. Bending or Twisting Fork; 145. Bending or Twisting Wrench ; 146. Clip Former ; 147. Clip Holder; 148. Clip Tightener or Clincher; 149. Jardinere Stand or Taboret; 150. Umbrella Stand; 151. Reading Lamp; 162. Andirons and Bar; 153. Fire Set; 154. Fire Set separated

## **CHAPTER VIII. IRON ORE, PREPARATION AND SMELTING.-155. Iron**

Ore; 156. Magnetite; 157. Red hematite; 158. Limonite or brown hematite ; 159. Ferrous carbonate ; 160. The Value of Ores; 161. Preparation of Ores; 162. Weathering; 163. Washing; 164. Crushing; 165. Roasting or calcination; 160. Fuels; 167, Fluxes; 168. The Blast; 109. The Reduction or Blast Furnace; 170. Classification of Pig Iron; 171. Bessemer iron; 172. Basic iron; 173. Mill iron; 174. Malleable iron; 175. Charcoal iron; 170. Foundry iron; 177. Grading Iron

## **CHAPTER IX. THE MANUFACTURE OF IRON AND STEEL. -178.**

Refining Pig Iron ; 179. The Open-hearth or Finery Process; 180. The Puddling Process ; 181. Steel; 182. The Crucible Process ; 183. The Bessemer Process; 184. The Open-hearth Process .

**FORMULAS AND TABLES . 197**

**INDEX . 207**
